ONE EARTH ONE BAND MUSIC FOR A UNITED FUTURE IN DIVERSITY CREATIVE POPROCK & MORE

Como El Sol

Komposition & Text: © Francisco Arcón Tonstudio SOL

Hey dear friends
we bring a new wind
we come all around here
music is our language
it is easy to know
the universal vibrations

You can feel the music
in your heart
it is, the truth

**Como el sol
darte la luz
como el sol
traerte nuestro calor
como el sol
darte amistad
como el sol
traerte la paz**

We are a new band
in a new global World
we play for all people here
we sing for poor or rich
for disabled persons
for black or white and all colours

Music brings the
magic in the world
it's the truth, its the truth

**Como el sol
darte la luz
como el sol
traerte nuestro calor
como el sol
darte amistad
como el sol
traerte la paz**

We are the action people

Komposition & Text: © Gereon Seeberg

This is Jenny, she plays the piano
Mozart, Wagner, Mendelson, when he's not
dropping beats
There are Asef, Dani and Julien playing the
guitar like ringing bell
even better when they have a whammy pedal
Behind the drum set Maurice lays the funk
down
only counts to 4 but without him we would
drown
on this side we have Gary slapping the bass
he plays just 2 notes but at least with some
grace

**We are the action people singing songs of joy
and hope**

**We are the action people came together to
sing these songs**

**We are the action people singing songs of joy
and hope**

**We are the action people came together to
sing these songs**

On the microphone Nicole sings her soul out
minor, major, harmonies, making our
masterpiece
And Merit, whose voice is out of this world
we build the face of this great group

The guitar is his true identity
Julien, playing faster than you can see
and the choir, filling space with beautiful noise
each and everyone unique in their voice

**We are the action people singing songs of joy
and hope**

**We are the action people came together to
sing these songs**

**We are the action people singing songs of joy
and hope**

**We are the action people came together to
sing these songs**

We are
We are (here to sing these songs)
We are the action people (of joy and hope)

We are the action people!

A Better World

Komposition & Text: © Francisco Arcón Tonstudio SOL

Life is not always good to you
many times, are heavy
But think, after the dark storm
the sun will come to you.

**When you smile open your heart
and friends will laughing with you**

**This is our future
The world is our home
We create a new feeling
Together we´ll open the doors**

Look around
all you see is energy
think about
what is living in fraternity
If many people don´t believe
this is our world
liff your face to the sun
and sing with us this song

Learning hard
hope is our company
the way we have
is the way to live in harmony
We believe in our words
that nobody can stop
Words and ideas are inside of you
and free where ever you go

**When you smile open your heart
and friends will laughing with you**

**This is our future
The world is our home
We create a new feeling
Together we´ll open the doors**

When you hear us
with this song
you will understand
that we want
to give you our energy
to make a better world

**When you smile open your heart
and friends will laughing with
you**

**The past is not important
The world is our home...(same
follow)
We create a new feeling
Together we´ll open the doors**

**This is our future
The world is our home
We create a new feeling
Together we´ll open the doors**

Across The World

Komposition & Text: © Francisco Arcón Tonstudio SOL

Across the mountain
I´m going my way
Across the sea
a million Souls are screaming
I was born in a world
Where the children are crying
I was born in a world
without future

When the day is gone
And the darkness is coming to me
When the day is gone
The stars bring me to you
No fatigue, no cold
Can stop me
When the day is gone
When the morning rise
Step by step I´m nearer to you
When the morning rise
The Wind is whispering your name
No frontiers no pain
Can stop me

**When the morning rise
When the morning rise
Across the world
Across the world**

**Across the world
I am coming to you
I am coming to you**

**When the morning rise
When the morning rise
Across the world**

Perfect Love

Komposition & Text:
© Francisco Arcón Tonstudio SOL 2018

Look at the rich man
in the very expensive car
People see a perfect life
he knows all what he want

View the beauty woman
in the shopping boulevard
People think she is perfect
she has always what she want

But when you see under the skin
nobody is perfect
but when you see, deeper as the fotografic
nobody is perfect

**Perfect, perfect
what is perfect?
Perfect, perfect
your love is perfect**

As in the "snow white" mirrow
we watch in instagram
all these perfect photos
Who's the nicest in this land?

To deform the pictures
is the only thing we can
We show a false personality
to feel us in this world

But when you see the reality
nobody is perfect
But when you see, deeper as the fotografic
Nobody is perfect

**Perfect, perfect
what is perfect?
Perfect, perfect
pure love is perfect**

**Perfect, perfect
what is perfect?
Perfect, perfect
your love is perfect**

Paradox

Komposition & Text :
© Gereon Seeberg 2018

Venice Beach took me in
place where there is no sin
The Troubador in Hollywood
I would stay if I could
There is something in the air
so that you don't seem to care
about all the problems in our world
utopia word for word

**Driving down the Golden Coast
I wish to be with you the most
Campfires on Thornhill Beach
Listening to this guys drunken speach of
forgotten kings of suburbia
in beautiful California**

Broken down machinery
mark a forgotten history
Wooden skeletons crouching deep
Surrender my friend, oh so sweet

Surfing down in Ocean Beach
With rats in just a few feet reach
Waiting for the relieving rain
to wash all the dirt down the drain

**Driving down the Golden Coast
I wish to be with you the most
Campfires on Thornhill Beach
Listening to this guys drunken speach
of forgotten kings of suburbia
in beautiful California**

paradox California
Drinking wine in paradise Napa
paradox California
and sleeping on the streets of America

**Driving down the Golden Coast
I wish to be with you the most
Campfires on Thornhill Beach
Listening to this guys drunken speach
of forgotten kings of suburbia
in beautiful California**
